

How to Listen Live on Mixlr

At 9 AM on Sunday mornings, the worship service is live on Mixlr and can be accessed on the [home page](#) of our website (bottom left corner).

The list of previous worship services can be found at:
<http://mixlr.com/firstchristianchurch/showreel/>.

To listen using the Mixlr app, follow the instructions below:

- Firstly, download the Mixlr app. The app can be downloaded via <https://itunes.apple.com/gb/app/mixlr/id583705714?ls=1&mt=8>
- Please note that the link above is for **iPhone users only**. If anyone is using an **Android** phone they can download the app for their device at <https://play.google.com/store/apps/details?id=com.mixlr.android>
- Once the app has been installed, tap the Mixlr icon to open it up.
- In order to receive notifications when the church starts each broadcast you will need to create an account. To create an account, tap the 'ME' icon and then select 'Create Account'.
- You will need to set a username, enter your email address and then set a password.
- Tap 'CREATE ACCOUNT' once you have entered these details. (You may find that the username you entered has already been taken by someone else, in which case choose a different username.)
- You will now need to go to your email account to activate the account. We will send you an email with a website link that you can tap or click to do this.
- When you open this link you'll see a notification at the top of the page that your account has been activated.
- You can now open the Mixlr app up again. Tap the 'ME' icon again and tap 'Log in'. You can now enter your username and password to log in.
- Once you have logged in, tap the search icon towards the top right of the screen - this looks like a small magnifying glass. When you tap this you will be able to search for the church's page on Mixlr. Type: firstchristianchurch (just like that, with no spaces) and tap 'Go' or 'Search' on your keyboard.
- You should then see a result for 'FIRSTCHRISTIANCHURCH'. Tap here. This will take you to the church's page. Underneath the account name on this page it will say '+FOLLOW' (this is written in white, on a light red background). Tap here, and it will change to say 'FOLLOWING'.
- Now that you are following the church you will receive a notification when the church starts a new broadcast. You can tap this notification to start listening to the sermon immediately each week.
